

SHIVESH ANAND

☎ +91-8210544643 ✉ shiveshanand8742@gmail.com 🌐 shiveshanand 📧 shiveshanand09 📍 Bengaluru, India

Summary

Data Analyst with 1+ year of experience **solving complex business problems**, building **BI dashboards**, engineering **ETL pipelines**, and improving **data accuracy** across reporting workflows. Reduced manual reporting effort by 40% and cut reporting errors by 35% through **Python** automation and structured **data validation**. Expert at **turning complex data into simple, actionable stories** for technical and business stakeholders. Brings an **AI-Native Mindset** — leveraging **Claude**, **CoPilots**, and **Cursor** to boost speed and scale. Certified in **Power BI (PL-300)**, Google Data Analytics, and IBM AI Fundamentals.

Technical Skills

Languages & Querying: Python (Pandas, NumPy), **Advanced SQL**, MySQL, PostgreSQL, BigQuery, Excel, JavaScript
BI & Visualization: **Power BI (DAX)**, Tableau, Power Query, **KPI Dashboards**, **Data Visualization**
Data Engineering: **ETL/ELT Pipelines**, **Data Cleaning**, **EDA**, Statistical Analysis, Data Warehousing, Data Modeling
Core Competencies: **Stakeholder Reporting**, Data Governance, **KPI Tracking**, QA & Validation, Agile Workflows
AI & DevTools: **Claude**, **CoPilots**, **Cursor**, Git, Flask, REST APIs, Postman, Linux

Experience

Data Analyst Intern

Nov 2025 – Apr 2026

eSparse Matrix Solutions Pvt. Ltd.

Pune, India (Remote)

- Built multi-page **Power BI dashboards** with 20+ **DAX** measures and dynamic slicers to track **KPIs** across business units, giving management a single consolidated view of performance data.
- Designed and maintained **Python** and **SQL ETL pipelines** processing business datasets weekly; trend findings shaped quarterly planning decisions for leadership.
- Introduced structured **data validation** and **data cleaning** steps across reporting workflows, reducing downstream errors by 35% and improving reliability of **stakeholder-facing reports**.
- Turned complex data into actionable stories** — presented pipeline improvements and insights to non-technical stakeholders, influencing feature prioritization on the product roadmap.

Data Analyst Intern

Apr 2025 – Sep 2025

Geeky Vision

Remote

- Automated repetitive data extraction and transformation tasks using **Python** scripts, cutting manual processing time by 30%; documentation became team onboarding material.
- Developed **Power BI** and **Tableau dashboards** that non-technical stakeholders used daily to monitor **KPIs** and **drive data-driven decision-making** without needing analyst support.
- Defined a repeatable **data QA** checklist adopted as team standard, ensuring consistency across all datasets and keeping outputs audit-ready.

Projects

Business Performance Dashboard | *Power BI, DAX, Power Query, SQL*

2025

- Built multi-page **Power BI** report with 20+ **DAX** measures, dynamic slicers, and cross-filtered visuals enabling executives to drill into **KPIs** by region, product, and time period.
- Rewrote Power Query steps to cut load time by 40%; applied star-schema **data modeling** for scalability; wrote a data dictionary enabling business teams to **self-serve insights**.

Automated Reporting Pipeline | *Python, SQL, Pandas, Excel*

2025

- Built a scheduled **ETL pipeline** that extracts from **SQL**, validates, and outputs formatted Excel reports — eliminating 40% of manual effort per reporting cycle.
- Added pre-output anomaly detection flagging nulls and outliers, preventing bad data from reaching stakeholders and improving **data accuracy**.

Data Quality & Standardization Framework | *SQL, Python, Data Governance*

2025

- Designed a reusable **Python** and **SQL** cleaning framework improving data integrity by 35%, adopted as team standard; documented data ownership, lineage, and quality thresholds.

Education

MIT World Peace University (MIT-WPU)

Aug 2021 – May 2025

B.E. Computer Science Engineering – Specialization in AI & Data Science

CGPA: 7.54/10 | Pune, India

Certifications & Achievements

- Microsoft Certified: Power BI Data Analyst Associate (PL-300)** — Microsoft, 2025
- Google Data Analytics Professional Certificate** — Google / Coursera, 2025
- IBM: Generative AI in Action | AI Fundamentals** — IBM, 2024
- Microsoft Copilot for Security** — Microsoft, 2024
- Deloitte Australia: Data Analytics Job Simulation** — 2024
- NAIP: Machine Learning** — IIT Jodhpur, 2023
- Smart India Hackathon (SIH)** — **National Winner:** Delivered a data-driven ML product selected among top national solutions.
- Codegoda 2022** — National Programming Competition Participant.
